Subject: *Credible science for WELS youth in secular schools*

WHEREAS WELS young adults and their unchurched friends deserve a reasoned apologetic in picturing for themselves the earthly realities of Genesis 1 - 11, therefore be it

Resolved that the Presidium of our Minnesota District of WELS alert all campus ministries to the helpful apologetic that was printed in the February-May 2009 issues of Forward in Christ, as well as keeping our youth informed on the progress that should be made in WELS in "test(ing) everything" (1 Thessalonians 5:21) sold by sectarian apologists.
